

HARDWARE LIFECYCLE MANAGEMENT

Our structured approach to network hardware management implements an asset-based approach that maximizes performance and cost efficiencies.

INDUSTRY KNOWLEDGE

Layer 3 has a variety of custom designed programs that are tailored to your needs.

- ▶ Purchase of your used and excess technology hardware. Competitors may actually charge to remove your unwanted equipment. But Layer 3 will not only reduce the costly expense of removing your technology equipment, but also allow you to recapture some of their value
- ▶ Site installations and decommissions
- ▶ Consignment and Trade-in/Trade-up programs that help with lifecycle management of key equipment

NEW & PREVIOUSLY ENJOYED PRODUCTS

We take great pride in our ability to adapt to meet whatever specific requirements that our clients request. By utilizing our customized programs, we enable our clients to design the perfect solution.

LIFECYCLE MANAGEMENT PROCESS

A lifecycle management process enables us to help our customers design, procure, deploy, secure/maintain, upgrade and ultimately choose the best option for disposition for their IT assets.

PROCUREMENT

Not only can we provide refurbished equipment, but we work with OEM's to provide new equipment complete with software, licensing, and warranty needs.

DECOMMISSION, E-CYCLE, & DISPOSAL

Decommissioning and repurposing of existing assets including consignment, purchase and trade-up options. We provide Data Erasure and R2 compliant recycling services when applicable.
